

Kids Against Hunger

Daily Bread Ministries' partnership with Kids Against Hunger (KAH) provides the opportunity to meet needs beyond our local and regional outreach efforts. KAH meals are packaged at Daily Bread Ministries warehouse and can be sent to the extreme hunger areas of the world. Product was shipped from Daily Bread's warehouse in San Antonio to the Haiti earthquake victims. It was also sent as disaster relief to the East Texas and Louisiana hurricane victims and to volunteer workers in the West, Texas explosion.

We also provide Kids Against Hunger meals and other resources to many partnering ministries that deliver them to orphanages in Mexico. The children come running when they see these missionary friends arriving from San Antonio, knowing there will be food, clothes and other gifts for each of them.

Under our staff's supervision, Kids Against Hunger meals can be packaged by volunteers onsite at almost any location such as churches, schools, or businesses. These nutritious dehydrated meals can be produced for about 25 cents a meal.

"Kids Against Hunger has brought Faith, Hope, Life & Love to people who do not know if they will have anything to eat or drink on a daily basis."

- Henry & Jacqueline Becerra, City Church International

Daily Bread

MINISTRIES

In addition to local hunger relief, Daily Bread supports a network of hunger relief worldwide. Kids Against Hunger receives product from Daily Bread Ministries and then sends it to famine and weather related stricken nations.

The mission of Kids Against Hunger, a humanitarian food-aid organization, is to significantly reduce the number of hungry children in the USA and to feed starving children throughout the world. Kids Against Hunger meals are formulated with scientific research to ensure a rich source of easily digestible protein, carbohydrates, and vitamins needed by a malnourished child's body.

These meals offer all of the essential amino acids required for complete nutrition. This is well beyond typical food relief sources such as rice or beans alone. The product simply requires six cups of boiling water to make a complete meal. Kids Against Hunger uses premium long-grain white rice because it is recognized worldwide and because of its shelf life.

These meals provide 21 vitamins and minerals and each bag contains six servings of the dehydrated food which serves six children. It provides not just a meal - but better health to starving children. The bags are made to be three-ply for strength and are moisture & odor-proof to prevent spoilage and insect or rodent problems. This food has a shelf life of at least three years.

Daily Bread Ministries is a distribution partner. Our proven track record of successfully getting food, distributing it properly, and being able to handle the responsibilities of a feeding program, qualified us for this wonderful program. We are able to assemble, package and ship this nutritional food product from Daily Bread Ministries to wherever the need is!
