

The Complete Story on MannaRelief ImmunAloe Vs. the Rest of the Aloe Manufacturers

	ImmunAloe	C	A	D
< 50 KDa	10.6%	1.7%	1.8%	0.3%
<400 KDa	19.0%	4.0%	6.3%	1.2%
Total Acemannan	21.2%	10.2%	9.9%	12.1%

The Complete Story on MannaRelief ImmunAloe

Helping Impact Malnutrition

- Ambrotose has Manapol (C) from Carrington, which has a low level of Acemannan...**about 10%. (see chart)**
- ImmunAloe has **twice as much... 20%!**
- The most immunomodulatory fraction is the **400kd**. That helps modulate the immune system in the gut where **80%** of the immune system exists.
- There is almost **5 times** the amount of that fraction in **ImmunAloe** than Manapol.

The Complete Story on MannaRelief **ImmunAloe** Supporting Immune Function

- Then the **50kd** fraction is the size that is **absorbed immediately** through the intestinal wall into the blood stream. Those fractions help modulate the rest of the immune system. There's almost **6 times** the level of those fractions in **ImmunAloe** vs Manapol (see chart)
- Proving **ImmunAloe** is far **superior** to Manapol.
- **ImmunAloe** will be available in the first part of November combined into a complete new nutritional product.

The Complete Story on MannaRelief **ImmunAloe** The BEST Affordable Monthly Nutrition For 2 People
